

CAPEPACK
CAPE CERSOL GROUP

—
**PACKAGING
SPECIALIST**

QUALITY

—
We offer quality. It is the best advertising.

CONFIDENCE

—
Good service is good business.

SOLUTIONS

—
Integral responses: we make it easy for you.

SAFETY

—
What you do impacts everyone.

ENVIRONMENT

—
We think about the future.

CAPE PACK

We distribute and commercialize any kind of packaging for several industrial fields.

CUSTOMIZED SOLUTIONS

Our professional team provides advice to each one of our customers, offering them an individual and efficient service.

PROFESSIONAL TECHNICAL ADVICE

Our technical team provides the best option, developing solutions and advantages.

WIDE RANGE OF PRODUCTS

We have a wide range of products, among others, drums, containers, buckets, caps and closures...

We offer additional services, guaranteeing a high quality in the packaging manufacturing process:

- Packaging sterilization
- Packaging lines design.
- Packaging design.
- Package labeling design.

BUSINESS SECTORS

AGROCHEMICAL SECTOR

—
Croopscience

Agriculture is one of the major sources of wealth, so that we shall take care and protect it.

We have a wide range of packaging, appropriate for each product that fields and harvest need: fertilizes, composts, herbicides and pesticides.

FOOD SECTOR

—
Safety

Safety should always come first when it comes to packing food.

All our products meet the EU Regulations and FDA related to food contact materials.

DETERGENCY SECTOR

—
Our daily life

In a country where tourism is an economic key, industrial detergency sector plays a leading role, too.

Our packaging offers extremely high chemical and mechanical strength, and is designed to be used in extreme work conditions, highly resistant to stress cracking (ESCR).

INKS, PAINTS and PIGMENTS

—
Colors

No matter viscosity, no matter surface tension, neither the end-use application.

We offer the appropriate packaging to transport solvent or water based products.

AUTOMOTIVE SECTOR

—
Operational

Wide range of products for all those liquids that daily cope with our vehicles: lubricants, fuels, additives (Adblue), antifreezes...

ANIMAL HEALTH SECTOR

—
To take care

Vaccines, antibiotics, vitamins, and all that related to health animal laboratories.

From 10 ml to 25 L.

All that range of products may be sterilized through ionizing radiations.

CHEMICAL SECTOR

—
100%

Our products are designed to meet the most stringent requirements.

We have the ideal solution for any packaging line of products: solids, liquids, viscous, ADR, toxics, corrosives or flammables.

One packaging for each application.

OFFICIAL DISTRIBUTORS

SABEU, a German company specialized on injection molding and mold manufacturing since 1958, in addition of being membranes manufacturers for more than 30 years.

FLUXX® DISPENSING TAPS

Dispensing Taps patented by FLUXX® to be used in drums and containers are perfectly suitable for simple, clean and quick refilling of fluids without gurgling. The outstanding Flow properties are based on the patented ventilation system.

FLUXX® DEGASSING INSERTS

Membranes used in FLUXX® packaging vents and vented closures offer crucial advantages for the packaging of gas emitting materials. These membranes allow for continuous pressure equalization, while preventing pressure build-up and suppression of containers.

FLUXX® VENTED CAPS

Based on their configuration and structural design, FLUXX® Vented Caps for drums and containers provide continuous pressure release, and prevent containers from swelling, bursting or collapsing.

SPECIAL PACKAGING

Each good needs a special packaging, so that we are at client disposal to help and give him advice to adapt the packaging to his product.

Our philosophy is to offer a global service to clients, in order to simplify suppliers' diversification.

NEW WOOD PALLETS

—
We offer wood pallets of any measure.
Our wood pallets suppliers can manufacture costume-made wood pallets, according to the clients' specific needs.

RECYCLED WOOD PALLETS

—
We offer a wide stock of standard measures wood pallets. That, allows us to meet the needs of our clients in a very short term.

RECOLLECT SERVICE

—
We offer a collection service of wood pallets, into conventional transport, platforms and containers.

CRUSHING SERVICE

—
According to our environmental protection philosophy, we offer a crushing service for those wooden pieces that cannot be anymore used to manufacture wood pallets. The crushed wood is used to manufacture chipboards as well as to generate energy.

ISPM 15 TREATMENT

According to the ISPM 15 regulation, pallets are heat-treated by heating the wood core up to 56°C for 30 minutes. This treatment prevents the spread of plagues.
